

Important Safety Information for **Alumilite Bumper Installation**

Incorrect installation or modification of this product can result in serious injury or damage to equipment or vehicles to which it is installed. *Please Read All Instructions Prior to Installation!*

NOTE: ICI's heavy duty aftermarket bumpers are designed for off-road use only! All liability for installation and use remains with the vehicle owner!

In addition to the safety guidelines below, ICI has included detailed installation instructions specific to each bumper. Locate and read the instructions, then follow them carefully to ensure correct installation. Please do not deviate from or modify these instructions. Do not use bracketing or attachments not provided by the manufacturer.

ICI's bumpers are very heavy and bulky and will require adequate support devices or additional personnel during the installation process. Do not attempt to install the bumper alone or without the use support devices.

Please follow safe workplace procedures to avoid injury to yourself or others.

DANGER: INJURY HAZARDS – FOLLOW SAFETY GUIDELINES

- 1. Always wear appropriate clothing and proper eye protection.**
- 2. Use extreme caution when preparing the vehicle for installation of this product. Use tire blocks, jacking devices or stands, support or lifting devices according to the manufacturer's recommendations.**
- 3. If any drilling is necessary, wear safety glasses and thoroughly inspect both sides of the area to be drilled for any items that could be affected or damaged by drilling. Relocate or protect affected items if necessary.**
- 4. Make sure not to damage any electrical wiring, cabling, or other vehicle components during the installation process.**
- 5. Follow all manufacturer installation instructions and if you are unsure what to do, please STOP and call the manufacturer for clarification.**
- 6. Make sure to properly tighten all nuts and bolts securely according to the installation instructions.**
- 7. Perform regular inspections and maintenance on all mounting hardware.**

FAILURE TO FOLLOW CORRECT INSTALLATION GUIDELINES CAN RESULT IN IMPROPER ATTACHMENT, DAMAGE TO THE VEHICLE, OR INJURY!

Thank you for your purchase!

ALUMILITE

Bumpers

Warranty Policy

Please register your purchase in order to validate your warranty. Complete the registration online at www.icionline.com/warranty, or mail the completed Product Registration Form to:
Innovative Creations, Ind. / Warranties 10016 S. 51st St. Phoenix AZ 85044

Structural Warranty

This warranty only applies under normal conditions and proper use of ICI product and is a parts only warranty. Any modifications or misuse of the ICI product will void the warranty. All Alumilite Bumpers by ICI have a Limited Lifetime Warranty on the structure beginning on the original purchase date. The warranty only applies to the original purchaser and protects against any structural manufacturer defects of original material or workmanship only. Alumilite Bumper structural warranty is expressly limited to the repair or replacement of the defective product or component. Repair or replacement is at the sole discretion of Innovative Creations, Ind. Photographs of the damage must be sent to ICI to begin any warranty claim. These photographs will be used to determine whether or not the product qualifies for a warranty claim, and determine if the product will be repaired or replaced, which is at the sole discretion of ICI. This warranty expressly does not cover; defects caused by improper installation, misuse, exposure to the elements, accidents, any incidental or consequential damages of any kind including property damage or personal injury resulting from the use or misuse of this product, freight charges, labor costs, installation costs, costs or losses due to down time of the vehicle.

Finish/Coating Warranty

Alumilite Bumpers have a powder coat finish that comes with a two year warranty from the original purchase date. The warranty does not cover normal wear and tear, modifications minor fading or abuse. Chips or damage from stones or impacts of any kind is not covered by the finish warranty. During the installation process, it is especially important to adjust the bumper before tightening the bolts to ensure a proper reveal between the bumper and the truck. If the bumper is rubbing any part of truck (i.e. grille, fenders, head lights, etc.), the vibrations caused by everyday driving can also damage the powder coat, and this is not covered under warranty.

Care and Maintenance

Because of the abuse that the bumpers receive during normal use, it is very important to care for and maintain this product on a regular basis. Clean and protect your new bumper, mounting brackets and hardware at least two times per month. In regions where salt or chemicals are used to keep roads clear of snow and ice, it is recommended you do this on a weekly basis to avoid rust or corrosion. Make sure that your bumpers are completely dry after cleaning. Do not let water stand on the surface of the bumper to avoid discoloring and water spots. Inspect your bumper regularly for chips and damage from rocks and other road debris. Bumpers are located in high debris impact areas and will incur chips and damage periodically. It is very important to maintain the finish and touch up any exposed metal. This prevents the metal from rusting or corroding under the powder coat and the finish from peeling away.

All warranty claims must be pre-approved by ICI. All returned claims must be accompanied by the original product, purchase invoice and description of the damage and how it occurred. The customer is responsible for all packaging and freight to and from. ICI will repair or replace items that have been qualified for warranty based on previously stated criteria.
